Objective

Motivated Computer Science student specializing in Machine Learning and Artificial Intelligence. Passionate about building intelligent systems and solving real-world problems using data. Seeking a Machine Learning Internship to gain hands-on experience and further develop my technical skills.

Education

Bachelor of Science in Computer Science

Faculty of Science, Tanta University

Expected Graduation: 2027

Projects

AI Breakup Recovery Assistant

- Developed an AI-based assistant using NLP and Sentiment Analysis
- Analyzes user emotions from text and provides supportive responses
- Applied text preprocessing and machine learning techniques

Semantic Auto-Complete System

- Developed using Data Structures concepts in Python
- Suggests relevant words based on user input

Experience

Computer & Math Teacher

- Taught programming basics and computer skills
- Simplified complex mathematical concepts for students
- Enhanced students' problem-solving and logical thinking skills

Technical Skills

Programming: Python

Machine Learning: Supervised Learning, Classification & Regression, Model Evaluation, Basic NLP

Computer Science Fundamentals: Data Structures, Algorithms, Object-Oriented Programming (OOP)

Databases: SQL, Database Design, Basic Querying

Libraries: Pandas, NumPy, Scikit-learn

Other: Data Cleaning, Data Visualization

Tools

Jupyter Notebook

VS Code

Git & GitHub

Languages

Arabic: Native

English: Good
